

GRANTLEY COLLEGE strives to offer a premier high school experience, together with comprehensive learning support, in a compassionate environment.

Grantley College has over 50 years of experience in educating children, who require or will benefit from a supportive learning environment, with a mainstream academic programme offered in small classes, by skilled teachers. This programme is supported by a range of extra mural activities – from Sport and the Arts, to Chess and Cookery Clubs.

Our Learning Support Unit, with two highly qualified Educational Psychologists, a Psychometrist and their team of dedicated Support Teachers, ensure an environment of academic, social and emotional support.
