

Guidelines for the Submission of Individual Oral Presentations

Please read and follow the abstract submission guidelines before submitting. Abstracts must comply with the proposed format guidelines.

Participants may choose to submit an individual oral paper presentation. Individual presentations submitted and accepted by the Scientific Committee will be grouped by category topics into thematic sessions, in order to promote communication among the presenters and participants and to facilitate discussion. Abstracts should be no longer than **150 words**.

If accepted, authors are requested to conform to the following guidelines for presentations:

- The presentations must be in English, the official language of the Congress.
- The presentation submission constitutes a formal commitment by the author/s to present the corresponding presentation in the session and timeslot assigned by the Scientific Committee.
- Changes in authorship should be communicated timeously to the Scientific Committee so that the necessary amendments can be made to the congress programme.
- If the original presenting author is unable to present, one of the co-authors must take over this responsibility.
- Presenters who are absent from their presentations without notifying the Scientific Committee in advance will be blacklisted for future Congresses.

*Notification of acceptance by the Scientific Committee will be emailed to the individual submitting the abstract. Detailed information, guidelines, and recommendations for oral or poster presentation, as well as time allotment, date, time, and venue will be duly sent to registered presenting authors.
