

Regulatory Update | Latest developments

During late June, the Department of Health issued the National Health Insurance (NHI) Bill and the Medical Schemes Amendment (MSA) Bill for public comment, and the Draft Report of the Health Market Inquiry was released on 5th July. These are all very material developments for healthcare in South Africa, and Discovery Health is currently engaging with healthcare professionals country wide to discuss these developments.

You are invited to join Discovery Health CEO, Dr Jonathan Broomberg to discuss the implications for health care delivery and funding in South Africa. Attached please find our initial views. We hope you find these useful. Please note that due to the significant interest that has been expressed in these events, we may have to limit the number of attendees based on venue capacity. Please respond at your earliest convenience to ensure your attendance.

Forward to a colleague

We look forward to working collaboratively with the organised health professions, the Department of Health and all other stakeholders to jointly build a better healthcare system to the benefit of all in South Africa.

Regards

Dr Maurice Goodman

Chief Medical Officer

Discovery Health
