

**UNISA's Departments of Industrial and Organisational Psychology
and Psychology invite you to attend**

**The Annual
Consulting Psychology
Conference**

***The Mysteries of Africa*
Consulting Psychology**

**The role of
Consulting Psychology**

i-Afrika yi ntsika ye hlabathi – Africa is the pillar of the world – in so far as humanity (Ubuntu) is concerned. Africa's mysteries to the world include ideals of humanity and interdependence as central tenets. However, these mysteries in the form of gifts often go unnoticed because colonialism is the primary lens through which Africa is viewed. Notwithstanding the history and present-day impact of colonialism, Africa and her mysteries remind us of implicit wisdom that should be brought to the fore. This conference will tell the African story in a different manner, by emphasizing how Africans grapple with familiar and unfamiliar challenges within organisations and communities. Africans are acknowledged not as passive recipients of the world's civilization, but rather as active participants and in fact leaders in the promotion of basic values of humanity, such as mutual respect, consultation, and interdependence, to name but a few.

Date: Thursday, 15 August 2019
Venue: Unisa (Muckleneuk Campus) - Kgorong Building
Cost: R780.00
CPD: Applying for CPD points
Website: www.unisa.ac.za/consultpsych

All conference participants are invited to contribute their personal experience and insights, so that we continually develop Consulting Psychology into a more dynamic, sought-after and future-focused profession.
