Healthbridge Nova

The Future of Practice Management

Healthbridge Nova is more than just software; it's a partnership that equips your practice with the tools and support to thrive in today's evolving healthcare landscape.

good business. best practice.

Simplify and Elevate Your Practice

Effortless Workflow

- Streamline appointments, invoicing, and claims with tools **designed to save time** and reduce admin tasks.
- Navigate effortlessly with a **user-friendly interface** that requires minimal training.

Boost Efficiency

- **Online Calendar with Automated Benefit Checks:** Instantly verify patient medical aid coverage.
- **Family Check:** Validate membership details and seamlessly integrate family records to eliminate errors and duplication.
- **Real-Time Claims & eRAs:** Receive real-time claim responses on claim coverage and automate reconciliation to save hours.
- **Customisation:** Tailor email/SMS templates and charge codes to fit your practice's needs.

Centralised Management

- **Task management Inbox:** Manage all admin action items; claims, collections, and remittances.
- **Multi-Branch Management:** Oversee schedules, revenue, and accounts across multiple locations.
- **Data-Driven Insights:** Leverage analytics to uncover revenue opportunities and improve performance.

Seamless Integration with Healthbridge Clinical, South Africa's leading eMR

- Access patient summaries, including allergies and chronic conditions, from digital files.
- Quickly document symptoms, exams, and diagnoses using intuitive templates.
- Auto-generate billing instructions and send them directly to medical aids or save for later.
- Set up SMS reminders for follow-up visits and create sick notes and referral letters effortlessly.
- Receive electronic pathology results & notify patients via SMS.
